PROFESSIONAL SUMMARY

Detail-oriented and highly motivated professional with hands-on experience in artificial intelligence and modern software development. Proven ability to build intelligent systems, scalable web applications, and automation-driven solutions. Skilled in delivering end-to-end, data-driven projects that showcase innovation, efficiency, and technical proficiency.

TECHNICAL SKILLS

Programming Languages : Python, Java, C, JavaScript
AI & Machine Learning : Machine Learning, Deep Learning, Computer Vision
Frameworks & Libraries : TensorFlow, Scikit-learn, OpenCV, FastAPI, React.js, Bootstrap
Frontend : HTML5, CSS3, JavaScript +, React.js
Backend : FastAPI, REST APIs
Databases : PostgreSQL, SQL, Supabase
Cloud & DevOps : Docker, Vercel, Netlify, Git, GitHub
Tools & Platforms : VS Code, Jupyter Notebook, n8n.

WORK EXPERIENCE

Web Developer Intern | Femtosoft Technologies, Chennai, India | June 2025 – July 2025

- Built dynamic, responsive websites using HTML5, CSS3, and JavaScript, improving cross-device compatibility and user experience.
- Optimized website performance using code minification, lazy loading, and asset compression techniques.
- Applied UI/UX best practices including accessibility standards and intuitive navigation to boost user engagement. Reduced page load times by **25%** through front-end optimization techniques.

PROJECTS

AI Face Recognition System — *Tech: Python, OpenCV, FastAPI, PostgreSQL, TensorFlow, HTML, CSS*

- Designed and deployed a real-time face recognition system for high-security environments, enabling automated identity verification, centralized monitoring, and blacklist-based alerts with **95%+ accuracy**.
- Developed scalable REST APIs and a PostgreSQL-backed architecture, delivering an end-to-end solution with a web-based dashboard and secure standalone deployment.

AI SEO Agent — *Tech: n8n, Docker, OpenAI API, PostgreSQL, Supabase, GA4, GSC, Telegram Bot API*

- Architected a self-hosted AI automation agent to generate and publish **4+ SEO-optimized blogs per month**, leveraging analytics-driven insights to streamline content strategy and reduce manual effort.
- Integrated search analytics, generative AI, and automated workflows to deliver an end-to-end solution featuring editorial approval via Telegram and seamless publishing through a cloud-based backend..

Employee Management System — *Tech: HTML5, CSS3, JavaScript, React.js, Vercel*

- Built a scalable platform capable of handling **100+ employee records** with streamlined operations.
- Built a full-featured, responsive web application to streamline employee data management and organizational workflows.
- Deployed on Vercel with CI/CD pipeline for fast load times and continuous delivery.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering
Loyola Institute of Technology, Kanyakumari, Tamil Nadu | 2022 – 2026

CERTIFICATIONS

- AI/ML Certification – Feathers Softwares (2024)
- Deep Learning Certification – Feathers Softwares (2025)
- C Programming – National Skill Development Certification Authority (NSDCA, 2023)
